

GIVE SIGHT GLOBALLY BY DONATING YOUR OLD EYEGLASSES

More than 2 billion people globally need glasses but lack access due to income, distance, or disaster. Seeing clearly provides the opportunity for adults and children to succeed at school or work, and care for their families.

Many of us update our eyeglass prescriptions every few years and keep old glasses that we can't wear. These can be recycled and donated to those who are not able to get much needed visual aid.

During the month of September, the MD Chapter CPCU Society will participate with VSP and the Eyes of Hope initiative. Donate your old eyeglasses to your CPCU representative for collection. They will be recycled and distributed to children and adults throughout the world.
